MINISTERO DELLA SANITÀ

COMMISSIONE UNICA DEL FARMACO

PROVVEDIMENTO 30 dicembre 1993.

Riclassificazione dei medicinali ai sensi dell'art. 8, comma 10, della legge 24 dicembre 1993, n. 537.

LA COMMISSIONE UNICA DEL FARMACO

Visto il decreto legislativo 30 giugno 1993, n. 266, recante riordinamento del Ministero della sanità, a norma dell'art. 1, comma 1, lettera *h)*, della legge 23 ottobre 1992, n. 421, con particolare riferimento all'articolo 7, nonché il decreto legislativo 27 gennaio 1992, n. 79.

Visti i commi 10 e 11 dell'art. 8 della legge 24 dicembre 1993, n. 537, recante interventi correttivi di finanza pubblica, i quali stabiliscono che, entro il 31 dicembre 1993, la Commissione unica del farmaco di cui all'articolo 7 del decreto legislativo n. 266/1993 procede alla riclassificazione delle specialità medicinali e dei preparati galenici autorizzati, collocandoli in una delle tre classi specificate dal comma 10 («*a)* farmaci essenziali e farmaci per malattie croniche; *b)* farmaci, diversi da quelli di cui alla lettera *a)*, di rilevante interesse terapeutico; *c)* altri farmaci privi delle caratteristiche indicate alle lettere *a)* e *b)*»), e precisano che la riclassificazione è effettuata in modo da garantire che l'onere a carico del Servizio sanitario nazionale per l'assistenza farmaceutica nell'anno 1994 non superi l'importo di 10.000 miliardi sulla base dei consumi del periodo 1° settembre 1992 - 31 agosto 1993 e tenuto conto delle disposizioni dei commi 14 e 16 dello stesso articolo 8;

Visto il comma 13 del medesimo articolo 8 della legge n. 537/1993, il quale stabilisce che la Commissione unica del farmaco, ai fini della classificazione dei farmaci di cui al comma 10, adotta il criterio delle categorie omogenee e che le decisioni della Commissione, adottate nel rispetto delle direttive comunitarie, sono immediatamente esecutive, pur prevedendosi la possibilità per le aziende produttrici di proporre, nei trenta giorni successivi, osservazioni sulle quali la Commissione è tenuta a decidere entro ulteriori quindici giorni.

Preso atto delle linee-guida riportate nell'allegato 1 al presente decreto, adottate dalla predetta Commissione, in via definitiva, nella seduta del 24 dicembre 1993, a seguito della comunicazione ministeriale del testo della legge recante interventi correttivi di finanza pubblica (legge 24 dicembre 1993, n. 537);

Preso atto che dette linee guida, adottate dalla Commissione ai fini dell'applicazione dei criteri indicati dalla legge, assumono, come sistema di massima per la classificazione dei principi attivi, il sistema «ATC» (anatomico-terapeutico-chimico), integrato, peraltro, dalla Commissione con la considerazione della documentazione di letteratura medica internazionale concernente l'attività clinica e la tossicità dei diversi principi attivi di una stessa classe terapeutica, nonché, ove necessario, con la considerazione del rapporto costo/beneficio, in relazione ai limiti di spesa previsti dalla predetta legge 24 dicembre 1993, n. 537, ai fini di pervenire alla identificazione di categorie omogenee anche attraverso sottoclassificazioni rispetto al sistema «ATC»;

Viste le deliberazioni assunte dalla Commissione unica del farmaco, con particolare riferimento a quelle delle sedute del 28 e 29 dicembre 1993;

Visto il decreto-legge 30 dicembre 1993, n. 552, recante disposizioni urgenti in materia di farmaci;

Dispone:

Art. 1.

1. L'allegato 1, riportante le linee guida richiamate nelle premesse, e l'allegato 2, contenente l'elenco delle specialità medicinali di cui è autorizzato il commercio, riclassificate ai sensi dell'art. 8, comma 10, della legge 24 dicembre 1993, n. 537, fanno parte integrante del presente atto.

Art. 2.

1. Le specialità medicinali elencate nell'allegato 2, contraddistinte con i simboli «A» o «H», riportati sotto la voce «classe», sono collocate nella classe *a)* dell'art. 8, comma 10, della legge 24 dicembre 1993, n. 537;

2. Le specialità medicinali elencate nell'allegato 2, contraddistinte con il simbolo «B», riportato sotto la voce «classe», sono collocate nella classe *b)* dell'art. 8, comma 10, della legge 24 dicembre 1993, n. 537;

3. Le specialità medicinali elencate nell'allegato 2, contraddistinte con il simbolo «C», riportato sotto la voce «classe», sono collocate nella classe *c)* dell'art. 8, comma 10, della legge 24 dicembre 1993, n. 537.

Art. 3.

1. I medicinali di cui al comma 1 dell'articolo 2, contraddistinti con il simbolo «H», hanno impiego limitato all'ambito ospedaliero o agli ambulatori specialistici, secondo le specifiche prescrizioni contenute nei relativi decreti di autorizzazione all'immissione in commercio o in provvedimenti modificativi degli stessi.

2. I medicinali richiamati al comma 1 dei quali, anteriormente all'entrata in vigore del presente atto, era consentito l'uso extraospedaliero, non possono più essere venduti al pubblico dal 15 gennaio 1994. Dalla stessa data l'impiego di tali farmaci è limitato agli ospedali, alle cliniche e alle case di cura e i lotti di nuova produzione devono recare in etichetta la dicitura «USO RISERVATO AGLI OSPEDALI, ALLE CLINICHE E ALLE CASE DI CURA. VIETATA LA VENDITA AL PUBBLICO»; è, peraltro, consentita fino al 30 giugno 1994 la vendita ai predetti presidi delle scorte prive della dicitura indicata.

Art. 4.

1. I medicinali per i quali nell'allegato 2 è indicata, sotto la voce «note», una numerazione di richiamo, devono essere prescritti o sottoposti a modalità di controllo in conformità di quanto indicato nelle corrispondenti note, riportate alla fine dell'elenco.

2. Le autorità sanitarie locali adottano misure idonee ad assicurare il rispetto della disposizione di cui al comma 1.

Art. 5.

1. Le scorte delle specialità medicinali precedentemente incluse nel prontuario terapeutico del Servizio sanitario nazionale e collocate con il presente atto nella classe *c)* del comma 10 della legge 24 dicembre 1993, n. 537, possono continuare ad essere vendute anche se dotate del bollino autoadesivo a lettura automatica previsto dal decreto ministeriale 29 febbraio 1988, pubblicato nella *Gazzetta Ufficiale* della Repubblica italiana n. 79 del 5 aprile 1988.

Art. 6.

1. Qualora il contributo a carico dell'assistito per una prestazione farmaceutica, ai sensi delle disposizioni contenute nella legge 24 dicembre 1993, n. 537, risulti superiore al prezzo di vendita al pubblico del medicinale prescritto, il farmacista è tenuto ad informare l'interessato e a spedire la ricetta al di fuori del sistema del Servizio sanitario nazionale.

Art. 7.

1. Il Ministero della sanità curerà la ripubblicazione nella *Gazzetta Ufficiale* della Repubblica italiana dell'elenco di cui all'allegato 2 unitamente alla pubblicazione di altro elenco riportante i medicinali per classi omogenee.

2. La Commissione unica del farmaco procederà, entro il 28 febbraio 1994, alla classificazione dei farmaci preconfezionati prodotti industrialmente, diversi dalle specialità medicinali.

3. La Commissione provvvederà, inoltre:

a) ad individuare, tenuto conto delle osservazioni eventualmente presentate dalle aziende farmaceutiche e delle necessità del ciclo terapeutico, quali confezioni delle specialità medicinali collocate con il presente atto nelle classi *a)* e *b)* possano essere mantenute in dette classi e quali confezioni debbano essere collocate nella classe *c)*;

b) a proporre l'avvio della procedura per la revoca dei medicinali per i quali, eventualmente, sussistano dubbi sul possesso dei requisiti previsti per il mantenimento dell'autorizzazione all'immissione in commercio.

4. La classificazione dei medicinali in base alla legge 24 dicembre 1993, n. 537, sarà riesaminata periodicamente dalla Commissione unica del farmaco ai fini di verificare, ai sensi dell'art. 7, comma 1, lettera *a)*, del decreto legislativo 30 giugno 1993, n. 266, la compatibilità finanziaria delle prestazioni farmaceutiche, tenuto conto dell'andamento dei consumi e dei prezzi.

5. Entro il 30 giugno 1994 l'elenco dei medicinali di cui è autorizzato il commercio sarà ripubblicato con l'indicazione, altresì, della classificazione di ciascun prodotto ai fini della fornitura, ai sensi del decreto legislativo 30 dicembre 1992, n. 539, secondo i criteri espressi dalla Commissione unica del farmaco a norma dell'art. 7, comma 1, lettera *c)* del citato decreto legislativo n. 266/1993.

Art. 8.

1. Il presente atto, che sarà pubblicato nella *Gazzetta Ufficiale* della Repubblica italiana, entra in vigore il 1° gennaio 1994.

Roma, 30 dicembre 1993

Il Ministro della sanità
Presidente della commissione unica del farmaco
GARAVAGLIA

ALLEGATO 1

LINEE GUIDA SEGUITE DALLA CUF PER LA RICLASSIFICAZIONE DEI MEDICINALI AI SENSI DELLA LEGGE RECANTE INTERVENTI CORRETTIVI DI FINANZA PUBBLICA COLLEGATA ALLA LEGGE FINANZIARIA 1994

I criteri utilizzati per individuare categorie omogenee di farmaci sono i seguenti:

1. rapporto benefici-rischi dei farmaci:

1.1 efficacia del farmaco, documentata da studi clinici controllati, nell'allungare la durata di vita o nel migliorare la qualità di vita o nel correggere parametri patologici;

1.2 rilevanza per gravità o per diffusione della patologia a cui si rivolge il farmaco;

1.3 importanza degli effetti tossici rispetto ai benefici attesi.

2. utilizzazione dei farmaci da parte degli ammalati:

2.1 accettabilità del trattamento;

2.2 caratteristiche della formulazione del farmaco in relazione alla sua facilità di assunzione soprattutto nel caso di trattamento cronico.

3. economicità del ciclo terapeutico:

3.1 costo dei farmaci in relazione al raggiungimento degli obiettivi di cui ai punti 1 e 2;

3.2 determinazione di un costo massimo per ciclo terapeutico quando all'interno di una categoria vi sia disomogeneità di costo, ma equivalenza terapeutica rispetto ai punti 1 e 2;

3.3 restrizioni nella prescrizione (registri USL) quando il farmaco sia valido per indicazioni specifiche, ma si presti ad un uso improprio.

La classificazione dei farmaci è stata effettuata utilizzando il cosiddetto sistema «Anatomico, Terapeutico, Chimico» (ATC), in quanto corrispondente alla banca dati disponibile presso il Ministero della sanità. Ove necessario si è proceduto a sottoclassificazioni per fare in modo che all'interno di una «categoria omogenea» i farmaci fossero comparabili per struttura chimica, attività biologica, meccanismo d'azione, efficacia clinica, sicurezza del trattamento e/o costo del ciclo terapeutico.

Pertanto i tre gruppi A, B e C, previsti dalla legge, sono stati così caratterizzati:

Gruppo A. - *Farmaci essenziali e farmaci per malattie croniche.*

Comprende farmaci rivolti al trattamento di gravi patologie per i quali esiste una soddisfacente ed accreditata efficacia. L'efficacia è stata valutata in base ai seguenti parametri:

1. aumento dell'aspettativa di vita;

2. riduzione delle complicanze invalidanti indotte dalla malattia;

3. miglioramento della qualità di vita.

Criteri aggiuntivi di preferenza per l'inclusione sono considerati:

minore incidenza di effetti tossici a parità di efficacia;

costo inferiore a parità di efficacia e tossicità;

Gruppo B. - *Farmaci diversi da quelli di cui alla lettera A di rilevante interesse terapeutico.*

Comprende farmaci rivolti al trattamento di patologie meno gravi di quelle considerate nel gruppo A per i quali la documentazione esistente fornisce dati significativamente favorevoli per parametri clinici e funzionali.

La modificazione di tali parametri non è necessariamente correlata ad un aumento dell'aspettativa di vita e/o ad una riduzione delle complicanze invalidanti.

Criteri aggiuntivi di preferenza per l'inclusione sono considerati:

minore incidenza di effetti tossici a parità di efficacia;

costo inferiore a parità di efficacia e tossicità;

Cruppo C. - *Farmaci che non rientrano nei gruppi A e B.*
